

The Calm Walks Toolkit

The plan, pre-built: 21 carry-one-card walk days, the poster set, cut-out pocket cards, and every log the method needs. Zero teaching. Grab today's card and go.

DAY 8

WEEK 2 · ANCHOR PHASE

Loops at the real number.

- 1 60-sec re-measure first
- 2 8-12 loops, pay at the knee
- 3 Jackpot the brave look-backs

Print. Cut. Clip. Walk.

This is the done-for-you layer of the Green Zone Method. Nothing here teaches; everything here deploys.

Piece	What you do with it	Pages
21 Day Cards	print the week, carry ONE card per walk — goal, three moves, pass check, and the log strip, all on the card	3–23
Poster set	the Zone Map on the fridge; the Red Poster (emergencies) by the leash hook; the Signals poster wherever the family will actually look	24–26
Pocket cards	cut the 8 wallet cards; laminate if you're fancy; one lives in the treat pouch forever	27
Daily logs	one row per walk, two minutes, kettle on; 7 sheets cover the plan	28–34
Planners	route map + trigger inventory, toolkit-sized	35–36

★ THE WHOLE POINT

On the sidewalk, a book is a liability — pages flap, dogs lunge, coffee spills. A single card in a jacket pocket is the difference between knowing the plan and **running** it. Print this once and the next three weeks require zero decisions before any walk.

PRINT SETTINGS

US Letter, portrait, 100% scale (no “fit to page”), color if you can. Cards work fine in grayscale; the posters earn their color. Re-print freely — it's your copy.

DAY 1

WEEK 1 · MAP PHASE

CARD 1/21

Scout walk. Change nothing.

D1

SETUP — Normal route, quiet hour. You are a surveyor today.

- 3 Home: fill the Trigger Inventory; circle the most common trigger

✓ TODAY PASSES WHEN

3+ sightings logged

⚡ IF IT GOES WRONG

Blow-up = data. Log the distance, add 3 cars: that's tomorrow's start line.

D3

SETUP — Same hour, same route. Today the number becomes official.

CARD 4/21

Build the heist map.

D4

SETUP — Kitchen table first, then one rehearsal walk of Route A.

THE THREE THINGS

- 1 Mark every trigger house / pinch / dog-park corner in red on the Route Planner
- 2 Route A passes sight-lines AT or BEYOND the number; mark escapes with E
- 3 Route B = the bunker (near-zero sightings). Walk Route A once; fix the map where it lies

✓ TODAY PASSES WHEN

Two routes drawn, escapes marked

⚡ IF IT GOES WRONG

Ambushed mid-rehearsal? Better now than next week. Add the red box, re-route tonight.

WEEK 1 · MAP PHASE
Quiet Day: sniffari.

CARD 5/21

D5

SETUP — Boring green space, longest leash, zero agenda. This IS the work.

THE THREE THINGS

- 1 20 minutes; the nose drives, you steer nothing
- 2 Fewer than ten words total
- 3 Tonight: re-read the marker + Loop pages (FE pp. 21–24)

✓ **TODAY PASSES WHEN**
15+ nose-down minutes, no training

WEEK 1 · MAP PHASE
Charge the marker.

CARD 6/21

D6

SETUP — Kitchen, post-breakfast. Then an easy J-walk on Route B.

THE THREE THINGS

- 1 “YES” → ONE-second pause → treat at the knee. 20 reps × 2 sets
- 2 Rep 15 check: say YES while he looks away — head should whip around
- 3 Route B, 12 min: practice the loose J only (two hands, gather don't winch)

✓ TODAY PASSES WHEN

D7

✓ TODAY PASSES WHEN

DAY 9

WEEK 2 · ANCHOR PHASE

Loops vs MOVING triggers.

CARD 9/21

D9

SETUP — Position so triggers cross **LATERALLY** at distance. Head-on stays banned.

THE THREE THINGS

- 1 Re-measure on a mover (often static number +2). Work there
- 2 Loop as always; movers slow the flick — pay slow ones, jackpot fast ones
- 3 A mover turning toward you = ambush, not a rep: U-turn, reset, resume

✓ **TODAY PASSES WHEN**
6+ mover loops, zero red moments

⚡ IF IT GOES WRONG

Locked-on sniper stare = too close for motion. +2 cars and retry. Screamer: 4–5 loops, leave early.

- 3 Last 2: full fake-ambush sequence ending in a 3-treat grass scatter

WEEK 2 · ANCHOR PHASE

CARD 11/21

Mix it all: loops + U-turns + the finder.

D11

SETUP — Route A. Real walks are judgment calls; today you drill the judgment.

THE THREE THINGS

- 1 Read zones aloud (quietly): green = loop, yellow edge = U-turn NOW (it counts as a rep)
- 2 Pinched pass? FINDER: scatter 3 treats in grass at the widest arc, let him Hoover through it
- 3 Cap at 14 actions; end on a loop if the street allows

✓ TODAY PASSES WHEN

3+ correct zone calls; 1 mid-loop U-turn

THE THREE THINGS

- 2 Tonight: check pouch seams, harness fit (two fingers), leash clip
- 3 Skim the FE emergency pages (54–59) once — load the scripts before you need them

✓ TODAY PASSES WHEN

D13

SETUP — Route A, slightly busier window. The skill: the SECOND sighting.

THE THREE THINGS

- 1 Set 1: re-measure, 5–6 loops, end clean

- 3 Set 2 at the fatter distance: 4–5 loops, end early, 5-min sniff out

✓ TODAY PASSES WHEN

THE THREE THINGS

- 1 Formal day-3 protocol: descending food tests, 3 greens to confirm. No loops first
- 2 Write the new number NEXT TO day-3's. Most: 1–3 cars tighter. Flat is fine too
- 3 Victory lap: 6 easy loops at the new number; jackpot the best one. Week Review

✓ TODAY PASSES WHEN

SETUP — Route A. Rung 1 = yesterday's number.

THE THREE THINGS

- 1 3 CLEAN loops (instant eat, <3-sec flick, soft mouth) across 2+ sightings = bell rings
- 2 Step ONE car closer → food test → green? New rung. Work it
- 3 2 rungs = strong day. 3 = ceiling. Log the ending rung

✓ TODAY PASSES WHEN

D16

SETUP — Manufactured-traffic spot ok. Clean now includes motion.

THE THREE THINGS

- 1 Re-measure on a mover; that's rung 1 (often +1–2 over yesterday)
- 2 3 clean MOVER loops = 1 car. Statics between sets as palate cleansers
- 3 Head-on traffic: still banned. Cross early, arc wide, no apology

✓ TODAY PASSES WHEN

- 3 Quit at 14 minutes. No ladder thoughts today

✓ TODAY PASSES WHEN

- 2 Easy loops at the local number until smooth, then ladder ONE rung
- 3 Log the home/away gap — watch it close over the next month

✓ TODAY PASSES WHEN

- 2 3 rehearsals at the corner AS IF a dog were there: exhale → “THIS WAY!” → turn → pay moving → scatter at 2 cars
- 3 Make the third rehearsal at a jog

✓ TODAY PASSES WHEN

D20

SETUP — Park path with one-way dog traffic. Following reads as pack drift, not threat.

THE THREE THINGS

- 1 Fall in **BEHIND** a calm leashed dog at rung +1, matching pace
- 2 Pay every glance-and-back; **JACKPOT** if he forgets the dog and just walks
- 3 3–4 minutes, peel off on an arc **BEFORE** it degrades. 1–2 follows total

✓ TODAY PASSES WHEN

CARD 21/21

Graduation: the normal walk.

D21

SETUP — Route A at a NORMAL hour — the time you used to avoid. Full kit.

THE THREE THINGS

- 1 Walk like a person walking a dog: loops where offered, U-turns where owed, finder if pinched
- 2 Mid-walk: one formal food test at the best rung — the book's final number
- 3 Home: final Week Review + the 3-sentence letter to future-you

✓ TODAY PASSES WHEN

✗ IF IT GOES WRONG

THE THREE LAWS

- Distance first. Always
